GETTING CARE

Your Primary Care Provider.

We call the main doctor you see a Primary Care Provider, or PCP. When you see the same PCP over time, it's easier to develop a relationship with them.

See your PCP for:

- Routine care, including yearly checkups.
- Coordinating your care with a specialist.
- Treatment for colds and flu.
- Referrals for non-emergency services.
- Information for accessing medical services.
- Managing medical problems.
- Other health concerns.

Schedule a wellness exam soon.

A yearly wellness exam with your PCP is important for good health. These visits are fully covered. Schedule your visit within the first 30 days of joining your health plan.

Change your PCP at any time.

It's important to have a PCP you like and trust. You can change your PCP at any time simply by calling us. If you like, we can recommend someone for you.

Guide to getting care.

Your Primary Care Provider (PCP).

This is the person you should see for most of your care. This includes checkups, treatments, vaccinations, minor injuries and other health concerns.

Urgent Care Clinics.

Network Urgent Care Clinics are a good option if your primary care provider is not available, and you have an illness or injury that needs quick attention. This could include sprains or strains, minor cuts needing stitches, sore throat, minor burns, rash, fever or infection of any kind.

Emergency care.

This level of care is for chest pain, bleeding that won't stop, trouble breathing, severe allergic rashes or the feeling that you might hurt someone or yourself. If it's an emergency, **call 911 or go to the nearest emergency room.**

We speak your language.

If you speak a language other than English, we can provide translated printed materials. Or we can provide an interpreter who can help you understand these materials. You'll find more information about Interpretive Services and Language Assistance in the member handbook. Or call Member Services at **1-866-622-7982, TTY 711.**
