Medicaid renewal

Take action

What you need to do to renew your Medicaid eligibility

Medicaid members need to renew their coverage each year. Your state will tell you when to renew. They may call it recertification or redetermination.

Make sure the state can reach you when it is time to renew. Give them your current address, email and phone number. You must reply when they contact you. If you don't, you could lose your health plan.

Dental health

Healthy mouth, healthy you

Good dental habits keep teeth and gums strong

A healthy mouth is an important part of your overall health. When you take care of your teeth, you are taking care of your body. Tooth decay, also known as cavities, can lead to problems with eating, speaking and learning.

More than half of Arizona's kindergarten children have a history of tooth decay. That number reaches 64% by third grade.

Getting kids involved and excited about their oral health will help them have good habits for life. Everyone in your family should visit the dentist every 6 months and brush their teeth twice a day. Floss once a day to clean in between teeth. Children under 8 years old may need help brushing and flossing their teeth.

Don't forget the fluoride

Fluoride helps make teeth stronger and less likely to get cavities. Your child's primary care provider can apply fluoride varnish as early as 6 months and every 3 months up to age 5. The dentist can still apply fluoride even after age 5.

Find your dental home. We connect all members under the age of 21 to a dental home. This is a specific dentist or dental office where you can go for your family's dental needs. If you do not know where your dental home is or need help changing it, we can help. Call Member Services toll-free at the phone number on Page 4.

Member experience

Help for members of all cultures

We care about our members. We value the cultural differences they have. We respect their different beliefs about the cause, prevention and treatment of illnesses.

We try to meet all of our members' communication needs. We can provide interpretation or translation services at no cost to you. We can also give you member materials in a language or format that may be easier for you to understand.

We're here to help. Call Member Services toll-free at the phone number on Page 4. We can help with finding a doctor who understands your cultural needs, translation services and getting you materials in another language or format.

Are you free of HIV?

Get tested during pregnancy to be sure

Any member can have a human immunodeficiency virus (HIV) test at any time. If you are pregnant and have HIV, the virus can be passed to your baby. The good news is that treatment during pregnancy and treating the baby after birth can greatly reduce the chance of this happening.

Talk to your primary care provider, maternity care provider or contact your local department of public health for testing. Testing is available at the Arizona Family Partnership. To learn more, call **1-888-272-5652** or visit **arizonafamilyhealth.org**. Planned Parenthood also offers testing and services. Call **1-800-230-7526** to learn more. If your test is positive, you can get specialty treatment and medical counseling.

Women's health

Just for women

You can get women's preventive health services every year. Preventive care keeps you well by checking for early signs of health issues. This allows your provider to treat problems early.

There is no copayment or other charge for this annual visit. We can help you schedule an appointment with your gynecologist or primary care provider (PCP). We can also give you a ride to your visit if you need it.

The covered services during this visit include:

- Physical exam
- Clinical breast exam
- Family planning counseling
- Immunizations
- Counseling to detect and reduce risk factors before getting pregnant

Vaccines

Part D coverage

Except for vaccines covered under Medicare Part B (medical insurance), Medicare drug plans must cover all commercially available vaccines (like the shingles vaccine) when medically necessary to prevent illness.

Under Titles VI and VII of the Civil Rights Act of 1964 (Title VI and VII) and the Americans with Disabilities Act of 1990 (ADA) Section 504 of the Rehabilitation Act of 1973 and the Age Discrimination Act of 1975, UnitedHealthcare Community Plan prohibits discrimination in admissions, programs, services, activities or employment based on race, color, religion, sex, national origin, age, and disability. UnitedHealthcare Community Plan must make a reasonable accommodation to allow a person with a disability to take part in a program, service, or activity. Auxiliary aids and services are available upon request to individuals with disabilities. For example, this means that if necessary, UnitedHealthcare Community Plan must provide sign language interpreters for people who are deaf, a wheelchair accessible location, or enlarged print materials. It also means that UnitedHealthcare Community Plan will take any other reasonable action that allows you to take part in and understand a program or activity, including making reasonable changes to an activity. If you believe that you will not be able to understand or take part in a program or activity because of your disability, please let us know of your disability needs in advance if at all possible.
