Care guidelines

The best care

Tools for better health

We give our providers tools so they can best care for our members. These tools are called clinical practice guidelines. They share best practices on how to manage illnesses and promote wellness.

The guidelines cover care for many illnesses and conditions like diabetes, high blood pressure and depression. They also give advice on how to stay well with proper diet, exercise and vaccines. For more information, visit uhcprovider.com/cpg.

Health equity

Safe and secure

How we use and protect language, cultural and social needs

At UnitedHealthcare®, we help coordinate your care across all of your health care providers. To do that, we receive and share important information about you. This may include your race, ethnicity, language you speak, gender identity, sexual orientation and social needs. This data and other personal information about you is protected health information (PHI). We may share this information with your health care providers as part of treatment, payment and operations. This helps us meet your health care needs.

Examples of how we may use this information to improve our services include:

- To find gaps in care
- To help you in languages other than English
- To create programs that meet your needs
- To tell your health care providers which language(s) you speak

We do not use this data to deny coverage or limit benefits. We protect this information in the same way we protect all other PHI. Access is restricted to those employees who need to use it. Our buildings and computers are secured. Computer passwords and other system protections keep your data safe.

To find out more about how we protect your cultural data, visit [uhc.com/about-us/re-collection-and-use](https://www.uhc.com/about-us/re-collection-and-use). Member Handbook

All about your health plan

Have you read your Member Handbook? It is a great source of information. It tells you how to use your plan. It explains:

- Your member rights and responsibilities
- The benefits and services you have
- The benefits and services you don't have (exclusions)
- What costs you may have for health care
- How to find out about network providers
- How your prescription drug benefits work
- What to do if you need care when you are out of town
- When and how you can get care from an out-of-network provider
- Where, when and how to get primary, after-hours, behavioral health, specialty, hospital and emergency care
- Our privacy policy
- What to do if you get a bill

- How to voice a complaint or appeal a coverage decision
- How to ask for an interpreter or get other help with language or translation
- How the plan decides if new treatments or technologies are covered
- How to report fraud and abuse

Get it all. You can read the Member Handbook online at myuhc.com/communityplan/benefitsandcvg.

Or call Member Services toll-free at the phone number on Page 10 to request a copy at no cost.

Plan benefits

Caring for you

We want to make sure you get the care you need when you need it. If you need help getting to your provider's office, we can help. Our health plan offers transportation benefits to get you to appointments. Call Member Services at the phone number on Page 10 to learn more.

If you need to see a provider right away, you can get after-hours care at urgent care centers. We also have a NurseLine that you can call anytime — 24 hours a day, 7 days a week. Call **1-877-440-0255, TTY 711**.

To find a provider or look for urgent care center locations near you, visit connect.werally.com/state-plan-selection/uhc.medicaid/state. Or use the UnitedHealthcare app.

Your drug benefits

What you need to know

Visit our website to learn about your prescription drug benefits. It includes information on:

- 1. What drugs are covered.** There is a list of covered drugs. You may need to use a generic drug in place of a brand-name drug.
- 2. Where to get your prescriptions filled.** You can find a pharmacy near you that accepts your plan. You may also be able to get certain drugs by mail.
- 3. Rules that may apply.** Some drugs may only be covered in certain cases. For example, you might need to try a different drug first. (This is called step therapy.) Or you might need approval from UnitedHealthcare to use a drug. (This is called prior authorization.) There also might be limits to the amount you can get of certain drugs.
- 4. Any costs to you.** You may have copayments for prescriptions.

Or call Member Services toll-free at the phone number on Page 10.

Utilization management

The right care

Utilization management (UM) helps make sure you receive the right care and services when you need them. Our UM staff reviews the services your provider asks for. They compare the care and services your provider asks for against clinical practice guidelines. They also compare what is being asked for against your benefits.

When the care is not covered under your benefits, it may be denied. It may also be denied when it does not meet clinical practice guidelines. We do not pay or reward our providers or staff for denying services or approving less care. If care is denied, you and your provider have a right to appeal. The denial letter will tell you how.

If you have any questions, call Member Services toll-free at the phone number on Page 10. TTY services and language assistance are available if you need them.

Vaccines

Part D coverage

Except for vaccines covered under Medicare Part B (medical insurance), Medicare drug plans must cover all commercially available vaccines (like the shingles vaccine) when medically necessary to prevent illness.

Data policies

Your privacy is important

How we keep your personal information safe

We take your privacy seriously. We are very careful with your family's protected health information (PHI). We also guard your financial information (FI). We use PHI and FI to run our business. It helps us provide products, services and information to you.

We protect oral, written and electronic PHI and FI throughout our business. We have rules and technology that keep PHI and FI safe. We don't want PHI or FI to get lost or destroyed. We want to make sure no one misuses it. We check to make sure we use PHI and FI carefully.

We have policies that explain:

- How we may use PHI and FI
- When we may share PHI and FI with others
- What rights you have to your family's PHI and FI

You may read our privacy policy in your Member Handbook. It's online at myuhc.com/communityplan/benefitsandcvg. You may also call Member Services toll-free at the phone number on Page 10 to ask us to mail you a copy. If we make changes to the policy, we will mail you a notice.

Health tools

Stay well

Programs to help manage your health

UnitedHealthcare Community Plan provides programs and services to help keep you well. We also have services to help better manage illnesses and other care needs. These are part of our population health program. They may include:

- Health education and reminders
- Maternity support and education
- Support for substance use disorders
- Programs to help you with complex health needs (case managers work with your provider and other outside agencies)

These programs are voluntary. They are offered at no cost to you. You can choose to stop any program at any time.

Learn more. You can find more information about our programs and services at myuhc.com/communityplan/healthwellness. If you want to make a referral to our case management program, call Member Services toll-free at the phone number on Page 10.

Primary care

Take charge

Preparing for your provider visit can help you get the most out of it. So can making sure your provider knows about all the care you get. Here are 4 ways you can take charge of your health care:

- 1. Think about what you want to get out of the visit before you go.** Focus on the top 3 things you need help with.
- 2. Tell your provider about any drugs or vitamins you take.** Bring a written list. Or bring the actual medicines. Mention who prescribed them for you.

- 3. Tell your provider about other providers you see.** Include behavioral health providers. Bring copies of any test results or treatment plans from other providers.
- 4. If you were in the hospital or emergency room (ER), see your provider as soon as possible after you go home.** Share your discharge instructions with them. Proper follow-up may prevent another hospital admission or visit to the ER.

Health plan goals

Top quality

We want the best for you

UnitedHealthcare Community Plan has a quality improvement program. It works to give members better health care and services. Each year we set goals. Then we measure how well we meet them.

Some of our goals focus on improving the number of services pregnant members and children receive. These include postpartum visits, well checkups and immunizations. Other goals focus on making sure people with certain diseases — such as diabetes — get the tests they need. Sometimes a member needs to go to the hospital or emergency room for a mental health issue. When this happens, our goal

is that they see a mental health professional after they go home.

We also survey our members each year. We want to see how they feel about our health plan. We use your feedback to improve the services we offer, including our provider network

and customer service. This year we are working on improving our members' digital experience.

Want more information on our quality improvement program and results? Call Member Services toll-free at the phone number on Page 10.

Communication needs

We provide services at no cost to help you communicate with us. We can send you information in languages other than English or in large print. You can ask for an interpreter. To ask for help, please call Member Services toll-free at the phone number on Page 10.

Proporcionamos servicios gratuitos para ayudarle a comunicarse con nosotros. Podemos enviarle información en idiomas distintos al inglés o en letra grande. Puede solicitar un intérprete. Para solicitar ayuda, llame a la línea gratuita de Servicios para miembros al número que aparece en la Página 10.

Substance use

Managing pain

Alternatives to opioids

Dealing with pain is not easy. You may be prescribed medication. It can help you manage your pain. This may include over-the-counter medications. Or it may be prescription painkillers, such as opioids. However, you may want to consider other options beyond medication. Here are some other ways you can manage pain.

Mind-body techniques

These may include activities like meditation, mindfulness or breathing exercises. There is often a mental part to pain. These techniques can help with that. Studies have shown that meditation can change how your brain processes pain.

Exercise

Exercise has a lot of health benefits. Managing pain is one of them. Walking,

swimming or stretching can be good options. Being inactive can lead to feeling pain. Exercise works against that. You can do exercise with mindfulness through activities like yoga or chair yoga.

Smoking cessation

Quitting time

By quitting smoking, you can feel better and improve your overall health. You can also save money for things that matter.

Quitting is not always easy. Help that can make quitting smoking easier includes:

- Getting advice from a provider
- Talking to a counselor
- Following an action plan
- Using nicotine replacement products

Visit myuhc.com/communityplan for information on your smoking cessation benefits. You can also get support from the Arizona Smokers' Helpline (ASHLine) at **1-800-556-6222**, TTY **711**. Or visit ashline.org.
